Name _____ Date _____

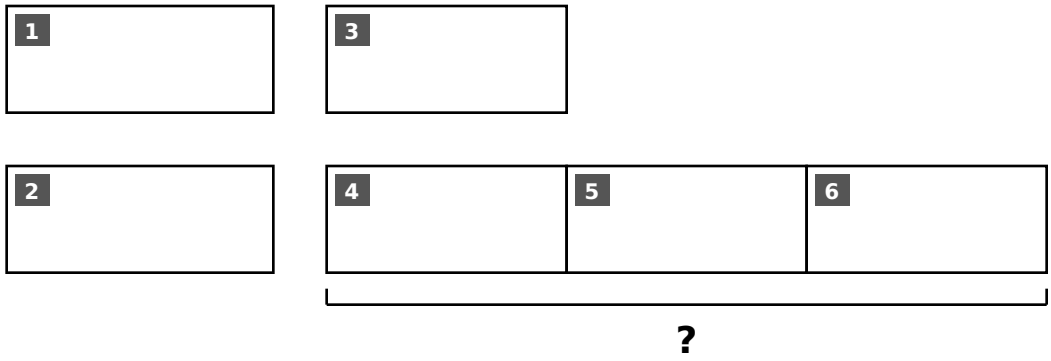
3. Jin has **8** baseball cards.

Toni has **3 times as many** cards as Jin.

How many cards does Toni have? Fill in the strip diagram.

Word bank: Toni Jin 3 8 11 23 24 33



Helper: Jin's bar is **1** part. Toni's bar is **3** parts. Every part is the **same size**.

Box 1 (name): _____

Box 2 (name): _____

Box 3: _____

Boxes 4, 5, 6: _____

Toni has _____ cards (the ?)

Name _____ Date _____

4. A number machine changes numbers. **In** goes in. **Out** comes out. How is the Out number related to the In number?

In	Out
3	12
5	20
7	28
9	36

Helper: Look at each row:

3 × _____ = 12

5 × _____ = 20

7 × _____ = 28

9 × _____ = 36

Finish the sentence:

The number that comes out of the machine is

_____ **times as many** as the number that goes into the machine.

Name _____ Date _____

5. Mario makes **3** batches of oatmeal cookies for every **9** batches of chocolate cookies. Which table shows this?

Helper: Find 3 in the **Oatmeal** column. Is **9** next to it in the **Chocolate** column?

A

Oatmeal	Chocolate
2	6
3	9
6	18
9	27

3 oatmeal → _____ chocolate

B

Oatmeal	Chocolate
6	2
9	3
18	6
27	9

3 oatmeal → _____ chocolate

C

Oatmeal	Chocolate
1	4
3	6
5	8
7	10

3 oatmeal → _____ chocolate

D

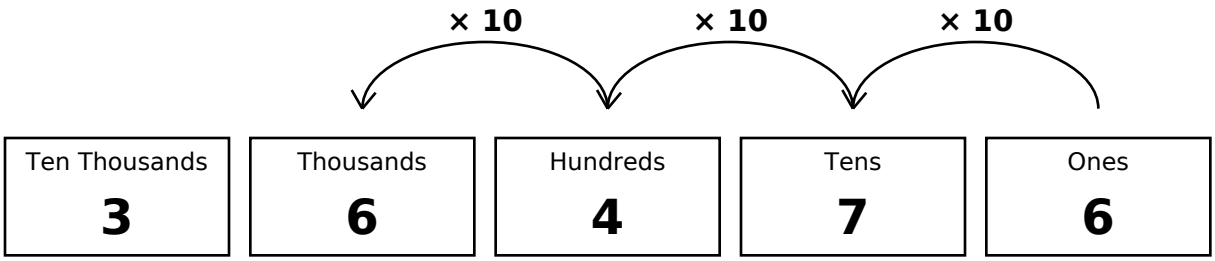
Oatmeal	Chocolate
2	11
3	12
6	15
9	18

3 oatmeal → _____ chocolate

Name _____ Date _____

6. Look at the number **36,476**.

How many times greater is the **thousands** place than the **ones** place?



Helper: Each jump to the left is **× 10**. Count the jumps from ones to thousands.

Jumps: _____ **10 × 10 × 10 =** _____

A The thousands place is three times greater than the ones place.

B The thousands place is one hundred times greater than the ones place.

C The thousands place is one thousand times greater than the ones place.

D The thousands place is six times greater than the ones place.
