Word Helper

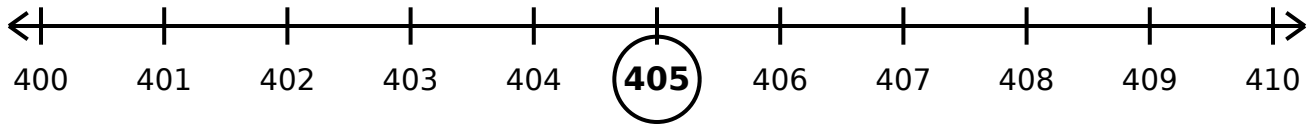

< means **less than** (smaller)

> means **greater than** (bigger)

The small point of < is next to the **smaller** number.

Write a **smaller** number and a **bigger** number.

Use the number line to help.

Step 1: 1 less than **405** is **405 − 1 =** _____

Step 2: 1 more than **405** is **405 + 1 =** _____

Step 3: Write your numbers in the number sentence.

_____ **< 405 <** _____

smaller bigger

Name _____ Date _____

TEKS 3.2D

Word Helper

least = smallest **greatest** = biggest

Look at the **yellow** place first. A bigger digit there = a bigger number.

1. Put the numbers in order from **least** to **greatest**.

4,321 6,152 2,743 5,014

Thousands	Hundreds	Tens	Ones
4	3	2	1
6	1	5	2
2	7	4	3
5	0	1	4

Write the numbers in order:

_____ least

<

_____

<

_____

<

_____ greatest

2. Put the numbers in order from **greatest** to **least**.

36,215 58,402 17,630 42,571

Ten Thousands	Thousands	Hundreds	Tens	Ones
3	6	2	1	5
5	8	4	0	2
1	7	6	3	0
4	2	5	7	1

Write the numbers in order:

_____ greatest

>

_____

>

_____

>

_____ least

Name _____ Date _____

TEKS 3.4B

Word Helper

The two tens: the ten **before** and the ten **after** your number. 23 → **20** and **30**

Look at the **ones** digit: **0, 1, 2, 3, 4** → round **down** **5, 6, 7, 8, 9** → round **up**

1. With a partner, use a **ruler**. Measure. Then round to the nearest **10 cm**.

Object	Measurement (cm)	Between which two tens?	Round to nearest 10 cm
Example: My shoe	23 cm	20 and 30 cm	20 cm
Long side of a desk		_____ and _____ cm	
A new pencil		_____ and _____ cm	
Short side of paper		_____ and _____ cm	
Long side of paper		_____ and _____ cm	

2. With a partner, use a **scale**. Weigh each bag. Round to the nearest **10 oz**.

Bag	Measurement (oz)	Between which two tens?	Round to nearest 10 oz
Example: Bag A	8 oz	0 and 10 oz	10 oz
Bag B		_____ and _____ oz	
Bag C		_____ and _____ oz	
Bag D		_____ and _____ oz	
Bag E		_____ and _____ oz	

Name _____ Date _____

TEKS 3.4B

Word Helper

mL = milliliters (liquid) For time, the two tens are like **10:00** and **10:10**

Look at the **ones** digit: **0, 1, 2, 3, 4** → round **down** **5, 6, 7, 8, 9** → round **up**

3. With a partner, use a **beaker**. Measure. Round to the nearest **10 mL**.

Container	Measurement (mL)	Between which two tens?	Round to nearest 10 mL
Example: Container A	33 mL	30 and 40 mL	30 mL
Container B		_____ and _____ mL	
Container C		_____ and _____ mL	
Container D		_____ and _____ mL	
Container E		_____ and _____ mL	

4. Use a **clock**. Write the time. Round to the nearest **10 minutes**.

Activity	Actual time	Between which two tens?	Round to nearest 10 minutes
Example: Started math	10:03	10:00 and 10:10	10:00
I started the Problem Set		_____ and _____	
I finished Station 1		_____ and _____	
I finished Station 2		_____ and _____	
I finished Station 3		_____ and _____	

Name _____ Date _____
